PROJECTS

Amazon clone   GitHub
- Clone of a popular shopping website Amazon which is a replica of the first slide of Amazon's website.
- Firstly, the skeleton of the clone with the help of HTML and then added the styling by using CSS.
- 'Flex boxes' are used to locate the content at its perfect location and used the 'Div' container to differentiate the content of the clone.
- Also added the hover effect on many redirectable options, that change their appearance when we hover over it.
- **Technologies:**
  HTML, CSS, VS Code, Git, GitHub.

SKILLS

Programming languages: C, C++, JS, HTML, CSS, Python

Technologies: Git, MySQL, Data Structures and Algorithms, Object Oriented Programming

Profiles: Github, Codechef
